

WeTravel2 - Travel without Limits.

We can travel too: safe, trendy and up-market travel package deals to exotic destinations for permanently or temporarily disabled travellers

Kristof Steegmans, WeTravel2, Heist-op-den-Berg, Belgium (presenter); Elke Claes, Heist-op-den-Berg, Belgium

When it comes to accessible travel, existing package deals mainly center on social tourism. Hence, no up-market and/or all-round offer exists for travellers with physical disabilities. Secondly, available information on accessible travel tends to be fragmented, so there is a need for data centralization. Thirdly, the travel industry has little knowledge on accessible travel for disabled travellers, so there is a need for sensitizing tourism partners on the subject. A specialized travel offer, valuable data and knowledge sharing on accessible travel: that's where WeTravel2 comes in.

WeTravel2 is a new, trendy and upmarket travel agency based near Antwerp, Belgium. WeTravel2 enables travellers with temporary or permanent disabilities to travel, without challenges and restrictions, providing them all the extra needs required during their stay. Adapted transport, assistance tools rental, availability of medical assistance and accessible excursions, hotels, restaurants, attractions... are the keys to valuable travel experiences for people with restricted physical possibilities. Guaranteeing clients a warm welcome locally is always part of the package deal. WeTravel2 offers existing tours and custom packages through authorized travel agencies. We currently offer accessible package tours to Tenerife, Aruba, Curaçao and Kenya (beach and safari holidays). We identify the accessible travel offer and local service and we evaluate their service level. Moreover, we sensitize the potential audience for accessible travel through lectures for associations, hospitals and businesses.

By providing a well-defined offer in accessible travel (a specific hotel selection on exotic, exclusive destinations), WeTravel2 offers an up-market and trendy range of travel possibilities to clients with physical disabilities. We see travel to be fun and (re)discovery without restrictions for everyone. As an accessible travel agency and a consultant, we strive to become the Belgian (European) reference for accessible travel. The joy of travel is within reach for everyone: we can travel too!
